IRIS

Prices of German Iris, except where noted, 25 cents each, \$2.20 for 10, \$15 per 100

TO MANY home-ground gardeners in America, the word Iris brings up mind pictures of merely two or three of the most common varieties—kinds that are either native to that particular locality or have become naturalized in the course of time. To such flower lovers we urge a close first-hand acquaintance with as large a number of the magnificent varieties in the following lists as can be accommodated in the planting space available. There is a stateliness and splendor about these improved varieties that taxes one's powers of description to the utmost; a range of color and form of flower that is simply marvelous; and the only danger to be combated in Iris-growing is that there is a possibility of becoming so enthusiastic about them as to plant only Irises to the exclusion of everything else! But that's a risk we have to run, and we do it gladly that we may make it possible for you to gain new friends in this wonderful family and acquire an Iris bed that will be not only a source of real joy to you but a mecca for the flower-lovers of your community.

IRIS GERMANICA

German Iris; Fleur-de-Lis

It is probable that the greatest range of color is found in this section—from pure white through all shades of mauve to blue and dark purple; the flowers are regular orchids in beauty and structure, and they have a delicate fragrance that seems to be only a natural accompaniment of such wonderful blooms. A well-drained sunny location, with the rhizomes just covered with soil is about all the planting advice needed. In the descriptions following, "S" represents standards or upper petals; "F" falls or lower petals.

GENERAL LIST OF GERMAN IRIS

Here are gathered together the "novelties" of other years that have "made good." It is an opportunity for the grower who is not interested particularly in having the newest things on the market to acquire a bed of these magnificent improved varieties at a comparatively low cost. A few in this list are yet rare, or are of exceptional merit, and the price of such is above the average. You will find, however, that whatever the price of the Iris named below, they are worth far more to you in enjoyment when they show their beautifully colored, orchid-like flowers at bloom-time. Be liberal in selection; you won't regret it.

Acquackanonk. S, light yellow; F, velvety maroon with a border of light yellow, lighter than King. 50 cts. each.

IRIS LÆVIGATA (KAEMPFERI)

Japanese Iris

This section of the Iris family embraces wonderful colorings, vivid yet harmonious; all the colors of the rainbow seem to have been gathered together in them in the most fascinating combinations. The great size of the flowers is noteworthy, it being not at all unusual to have blooms 6 to 8 inches across, while there are plenty of instances on record where these marvelous flowers have reached the enormous size of 12 inches across.

A good, well-drained soil will encourage sturdy growth and amazing blooms if they are given plenty of water during the dry season. They come into bloom right after the German Iris and are at their best in July,

VISIT OUR NURSERIES

THESE plants, as well as many others, may be seen growing at our Nurseries, and you are cordially invited to inspect them at your leisure.

We will be glad to mail to you a copy of our illustrated General Catalogue, which fully describes our products and will be found to be an invaluable reference book.

If you desire further information on Peonies and Iris or on any other branch of horticulture, we will be glad to supply it. Do not hesitate to write to us; you will always receive a courteous reply, containing the information you may desire.

Rutherford is the first and Carlton Hill the second stop from Jersey City on the Erie Main Line, and our Nurseries are a few minutes' walk from either station.

For automobiles, the new Dyckman Street Ferry from 204th Street to Palisades Avenue or the 42d Street Ferry are the best, with very good roads right to the Nurseries.
